Allowable Subject Matter

1. Claims 1-3, 5-6, 8-10, 12-14, 16 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Relative to independent claims 1, 8, the major difference between the teaching of the prior art of record (Tjandrasuwita , Kim and Asprey) and the instant invention is that the said prior art **does not teach** a liquid crystal display apparatus with a pseudo-gray-level-expansion portion for applying pseudo gray level expansion to sub-pixel data calculated by gray level adjustment portion, wherein pseudo-gray-level-expansion portion converts sub-pixel data which is converted by gray level adjustment portion and has a larger number of bits than number of bits of liquid crystal driver into data which has number of bits of liquid crystal driver and is equivalent to data having larger number of bits.

Relative to independent claim 5 the major difference between the teaching of the prior art of record (Tjandrasuwita and Asprey) and the instant invention is that the said prior art **does not teach** a monochrome liquid crystal display apparatus wherein controller assumes a characteristic for the particular sub-pixel in which no multiple of the brightness level of any intermediate gray level is identical to the brightness level of any intermediate gray level of another sub-pixel and selecting a gray level which provides desired brightness from within characteristic, and wherein controller outputs a gray level by using a given gamma characteristic for a particular sub-pixel of plurality of sub-pixels and outputs a gray level based on a different gamma characteristic for other sub-pixels.

Relative to independent claims 9, 12-13, the major difference between the teaching of the prior art of record (Tjandrasuwita , Larkin and Asprey) and the instant invention is that the said prior art **does not teach** an image conversion method wherein replacing replaces sub-pixel data with an appropriate gray level by using a gray level filling the space between gray levels of basic gamma characteristic set based on number of bits.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
